(54) Title: METHOD AND DEVICE FOR APPLYING A REINFORCEMENT TO A PLASTIC PIPE BY WAY OF A WRAP
WELDING PROCESS

(57) Abstract: The invention relates to a plastic pipe (1) comprising at least one connection site (2) for connection to another plastic pipe (3) or to another connecting piece, said connection site (2) having a sealing area. A reinforcement (5) is applied to the connection site (2) in the sealing area and substantially or completely prevents the plastic of the connection site (2) from creeping in the sealing area. The invention also relates to a method and devices for producing a corresponding plastic pipe.
